Students who need non-Open Studies courses to graduate may need to consider a different study abroad program. Non-Open Studies courses include business (e.g. finance, marketing, management and human resources), engineering and senior level courses in any subject.

VSCP students cannot take courses in law, medicine, dentistry or nursing.

There is an additional fee for all economics courses and business and engineering courses. Please ask a VSCP advisor.

VSCP students may audit many academic courses. This means that students can attend the lectures but do not need to do the assignments or exams. Students DO NOT receive academic credit for audit courses. The audit fee is half of the credit fee.

Academic course information is available online.

The symbols for Open Studies courses are "O" and "L" in the course listings information.
