IELTS or TOEFL Specialisation

Specially designed for students that are seeking to improve their IELTS or TOEFL scores, either in specific band scores or their overall score, the GEAP program can be tailored to focus on developing student's ability in these tests, in order to maximise their scores. Our centre includes instructors who are also IELTS assessors, and so students can benefit from the insights from these instructors on common errors students make, and what to aim for to achieve a higher score.

Assessment and Graduation

Students will receive an assessment and grade report upon completion of their program. To mark the end of the program, a virtual closing ceremony can be held at the conclusion if desired by our partner institutions.

Please note: these programs are non-award.

Student Support

We understand that many students may not have studied in the online space before. We offer a pre-program orientation for program participants so that they are able to test their equipment and resolve any technical questions prior to beginning their academic program. This also gives the opportunity for students to meet our friendly team who will be there to provide support throughout our virtual programs.

ELC Social Club

Whether in-person or online, students love to interact with their peers from the University of Adelaide. Even though we can't meet in person, our online guided chat forums with local Adelaide volunteers and University of Adelaide students are a popular way to stay connected, and are an ideal way for students to learn about Australian culture.
