Be a bridge between Shizuoka and the world

Shizuoka University's Asia Bridge Program (ABP) provides seamless support from admissions and campus life through employment after graduation.

ABP is a degree-granting program offered in partnership with companies and local governments throughout Shizuoka Prefecture. It aims to serve as a bridge between Shizuoka and the world by developing human resources that will promote regional multicultural coexistence. Focusing on India, Indonesia, Myanmar, Thailand, and Vietnam, which have welcomed operations from many corporations from Shizuoka Prefecture, the program aims to contribute to promoting international development in Shizuoka communities and industry by training excellent students, both international and domestic.
